PREFACE

BULLETIN OF CHEMICAL REACTION ENGINEERING & CATALYSIS (ISSN 1978-2993) is an electronic international journal. The journal is a media for communicating all research activities in chemical reaction engineering and catalysis fields, and disseminating the novel technology and news related to chemical reaction engineering, catalyst engineering and science, bioreactor engineering, membrane reactor, and catalytic reactor engineering.

This issue (BCREC, Volume 8, Issue 1, Year 2013) has published two review articles including mitigation of current environmental concerns from methanol synthesis, and heterogeneous acid-base catalysts for fragrances synthesis. Some original research articles focused on enzymatic catalysis have also been reported in this issue, including: enzymatic hydrolysis of alkaline pretreated coconut coir, production of sorbitol and mannitol from sugars catalyzed by Ni nanoparticles supported on aluminum hydroxide, and improved stabilities of immobilized glucoamylase on functionalized mesoporous silica. Some other articles focused on material studies have also been published in this issue, they are preparation and characterization of zeolite membrane for bioethanol purification, synthesis and characterization of high aluminum zeolite X, as well as preparation and characterization of acids and alkali treated kaolin clay. Studies about catalyst for oxidation and dehydrogenation processes have also been focused in this issue, they are Pt-Sn/Al₂O₃ catalyst for propane dehydrogenation, and Ag/Ce_{1-x}Mn_xO_{2.6} catalyst for oxidation process.

Currently, the BCREC journal is an open access electronic international journal. Readers can read and download any full-text articles for free of charge. However, Authors may pay some processing fees once their articles have been accepted, i.e. for subscription of Original Reprint Articles. Authors may also pay some fees for the Original Reprint Articles with some eligible rates. The research articles submitted to the BCREC journal will be peer-reviewed by at least two reviewers. Accepted research articles will be available online following the journal peer-reviewing process as well as assigned to DOI number from CrossRef. Official language used in this journal is English.

Official website address of BCREC journal is: <http://bcrec.undip.ac.id>.

Editor would like to appreciate all researchers, academicians, industrial practitioners focused on chemical reaction engineering and catalysis to contribute to this online journal.
