

PREFACE

BULLETIN OF CHEMICAL REACTION ENGINEERING & CATALYSIS (BCREC), Volume 5, Number 2, Year 2010 is an electronic journal as a media for communicating all research activities in Chemical Reaction Engineering and Catalysis fields, and disseminating the novel technology and news related to chemical reaction engineering, catalyst engineering and science, and catalytic reactor engineering.

In this issue, articles related to: Mesoporous Silica from Rice Husk ; A Review on Diesel Soot Emission, its Effect and Control; Optimal Geometric Configuration for Power Consumption in Baffled Surface Aeration Tanks; Isothermal Kinetics of Catalyzed Air Oxidation of Diesel Soot; Optimization of Reactor Temperature and Catalyst Weight for Plastic Cracking to Fuels Using Response Surface; Catalytic Hydrogenation of Acetone to Isopropanol: An Environmentally Benign Approach are highlighted.

The BCREC journal is an online electronic journal. Visitors can read and download any full-text articles for free of charge. The research articles submitted to the BCREC journal will be peer-reviewed by at least two reviewers. Accepted research articles will be available online (free download) following the journal peer-reviewing process. Language used in this bulletin is English or Indonesian, but English is preferable. Website address of BCREC journal is: <http://bcrec.undip.ac.id>, while website address for Online Submission is: <http://ejournal.undip.ac.id/index.php/bcrec>.

Editor would like to appreciate all researchers, academicians, industrial practitioners focused on chemical reaction engineering and catalysis to contribute to this online journal. This journal is also expected to be a reputable international journal.

The BCREC journal has been distributed by **EBSCO PUBLISHING (ACADEMIC SEARCH COMPLETE—<http://search.ebscohost.com>)** started from Volume 4 Number 1 Year 2009 to present.

Dr. Istadi (Editor-in-Chief)

Chemical Reaction Engineering & Catalysis, Department of Chemical Engineering, Diponegoro University
