Abstract

The airmend of this study to understand the law relating to land in the cosmology of Osing sciety and the cosmology of Osing society. How the law relating to land in the cosmology of Osing was understood and how the Osing society reached the harmony when they faced the changing as primary question. On the other hand, it was also intended to analyse the events/process related to the law relating to land when the changing took place, and the cosmology's role in the changing, mainly in reaching the harmony. By contrusctivism paradigm and legal anthropology was mainly to assist/guide the society in the efforts concerning with the changing situation faced by them. In addition, the cosmology assured the society reach the harmony in relation to dialectics between the newö presented by the changing and the oldö recognized the society.
