

Dear Editor-in-Chief,
Jurnal Ilmu Lingkungan
Universitas Diponegoro

We hereby submit a manuscript entitled **“Comparison of Swiftlet (*Aerodramus fuciphagus*) Waste Accumulation Between Floors in Two Swiftlet Houses Based on Microhabitat Characteristics”** for consideration to be published as a research article in Jurnal Ilmu Lingkungan, Universitas Diponegoro.

This manuscript presents original research that examines the relationship between microhabitat characteristics within swiftlet houses and the accumulation of bird droppings as an indicator of swiftlet activity and environmental conditions. The topic is closely aligned with the scope of Jurnal Ilmu Lingkungan, particularly in the fields of environmental ecology, biological indicators, and microenvironmental management.

We confirm that this manuscript:

1. Is an original work and free from plagiarism.
2. Has not been published previously and is not under consideration by any other journal.
3. Has been prepared in accordance with the journal's guidelines and publication ethics.

To support the review process, we have also provided a list of suggested reviewers with relevant expertise to the subject of this study.

We appreciate your time and consideration. We look forward to your favorable response.

Sincerely,

Sabrina Zawatil Amal
Universitas Negeri Surabaya
