The front cover illustrates the sketch of leaves and seeds of legume and grass forming a buffalo’s horn (designed by Agung Purnomoadi)
JOURNAL OF THE INDONESIAN TROPICAL ANIMAL AGRICULTURE

History

MEDIA was the first academic bulletin at Faculty of Animal Science and Fisheries, Diponegoro University in 1975. Along with the development of livestock and fisheries field in the faculty, the faculty was split into the Faculty of Animal Science and Faculty of Fisheries. Consequently, there was a change of the journal name from MEDIA to Jurnal Pengembangan Peternakan Tropis (JPPT) in 1998.

JPPT awarded accreditation at the first time in 1999 by Directorate General of Higher Education, Republic of Indonesia. The accreditation was obtained every three years until 2011. JPPT is published on March, June, September and December.

JPPT was awarded the internationalization grant from 2009 to 2011. Consequently, JPPT no longer publish’s articles in Indonesian, but all articles have been published in English since September 2009. The name of JPPT, therefore, was changed officially to Journal of the Indonesian Tropical Animal Agriculture (JITAA) in 2009.

JITAA was accredited again in 2011 for a period of five years since November 15, 2011 with No 81/DIKTI/Kep/2011. JITAA as the open access journal has been indexed by Directory of Open Access Journal (DOAJ), CAB International and EBSCO.

Aims and Scopes

Journal of the Indonesian Tropical Agriculture (JITAA) is a peer-reviewed publication devoted to disseminate all information contributing to the understanding and development of animal agriculture in the tropics by publication of original research papers. The journal covers all aspect relating to animal Agriculture, including animal breeding and genetics, animal feeding and nutrition, animal reproduction, animal biotechnology, animal physiology, animal production and technology, animal products technology, animal management and economics, animal products processing and animal by-products, animal microbiology, livestock farming systems, and other related topics in relation to animal science

Publication Ethics and Malpractice Statement

SECTION I: Publication
1. All submitted manuscript are reviewed by at least two reviewers who expertise in their subject.
2. The originality, soundness, novelty and language are factors that are taken into account in review by reviewers.
3. The results of review are categorized into eligible to publish in Journal of the Indonesian Tropical Animal Agriculture (JITAA) without revision, eligible to publish in JITAA with minor revision, eligible to publish in JITAA with major revision, and rejection.
4. If authors are encouraged to revise and resubmit a manuscript, then there is no guarantee that the revised submission will be accepted.
5. Rejected manuscript not be re-reviewed.

SECTION II: Editor
1. Editors have full responsibility and authority to reject/accept an manuscript.
2. Editors should guarantee the quality of the papers published in JITAA.
3. Editors should provide all information needed by authors to improve the publication.
4. Editors should preserve the identity or anonymity of reviewers.
5. Editors should publish errata page when needed.
6. Editors should not allow any conflicts of interest among authors, reviewers and board members.
SECTION III: Authors
1. Authors have to certify that the manuscript has not previously been published or is not being considered for publication elsewhere.
2. Authors have to certify that manuscript submitted is free from plagiarism.
3. Authors state that experiment conducted is according to national, international or applicable regulations for conducting scientific research.
4. Authors have to follow the rule of guideline of JITAA.
5. Authors state that all data analyzed are real.

SECTION IV: Reviewers
1. Reviewers should evaluate a manuscript solely on academic merits, in which if a conflict of interest is detected it should be immediately notified to the editor.
2. Reviewers have to keep all information relating to the manuscript reviewed.
3. Reviewers should review a manuscript objectively.
4. Reviewers should notify clearly on unclear statement written by authors.
5. Reviewers should not review manuscripts in which they have conflicts of interest resulting from competitive or relationships with any of the authors.
6. If plagiarism is detected, reviewers should notify the editors immediately.
Effect of FSH β-Sub Unit and FSHR Genes Polymorphisms on Superovulatory Response Traits - E. Andreas, I. Arifiantini, F. Saputra, A.B.L. Ishak, M. Imron and C. Sumantri 197 - 203

Genetic Diversity of Kejobong Goat Based on Mitochondrial DNA D-loop Sequence - M. F. Harlistyo, Sutopo and E. Kurnianto 204 - 209

The Effect of Concentrate Containing Probiotics on Fermentation Characteristics, Methanogenesis and In vitro Nutrient Digestibility - B. Santoso, B. Tj. Hariadi and H. Abubakar 210 - 216

Feeding Effect of Inulin Derived from Dahlia variabilis Tuber on Intestinal Microbes in Starter Period of Crossbred Native Chickens - L. Krismiyanto, N. Suthama and H. I. Wahyuni 217 - 223

Isolation and Lignocellulolytic Activities of Fiber-digesting Bacteria from Digestive Tract of Termite (Cryptothermes sp.) - B.I.M. Tampebolon, Z. Bachruddin, L.M. Yusiati and S. Margino 224 - 234

Some Factors Affecting Intensive Rearing Adoption on Beef Cattle Farmers in Wajo Regency, South Sulawesi Province - S. Baba, M.I.A. Dagong and M. Risal 235 - 241

Pre-slaughter Stress Estimation by Fourier Transform Infrared Spectroscopy Analysis - S. Widiyanto, I. Widiyono, P. Purwono and P. Astuti 242 - 248

Carcass Quality, Marbling and Cholesterol Content of Male Bali Cattle Fed Fermented Cocoa Shell - E. Suryanto, Bulkaini, Ashari and I. W. Karda 249 - 255
