Subject: Submission of Manuscript

Dear Chief Editor

I am pleased to submit a manuscript entitled "The role of emotion regulation between cognitive distortion and stress in parenting children with developmental disorders" written by Esthi Rahayu, Dwi Yuwono Puji Sugiharto, Edy Purwanto, and Awalya for consideration and publication in the Jurnal Psikologi, Universitas Diponegoro. Our study explores how emotion regulation plays a role as a mediator variable between cognitive distortion and stress in parenting mothers of children with developmental disorders.

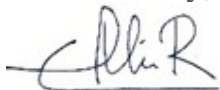

Our study provides new information, that the role of emotion regulation between cognitive distortion and stress in parenting mothers, is as a predictor or as a moderator and not as a mediator. This finding is useful for practitioners in designing interventions to reduce maternal stress in parenting children with developmental disorders.

We believe this manuscript is in line with the objectives and scope of this journal and will be of interest to its readers, including researchers and professionals in the fields of psychology, counseling, and family therapy.

We confirm that this manuscript is original, has not been published elsewhere, and is not under consideration by any other publication. All authors have approved this manuscript and are aware of its submission. There are no conflicts of interest to disclose.

Thank you for considering this manuscript for publication. We look forward to the opportunity to contribute to the Jurnal Psikologi, Universitas Diponegoro and would be happy to provide any additional information needed.

Yours Sincerely,

Esthi Rahayu
