Volume 19 Number 1 March 2019

Investigating Mass Transfer Phenomena in Batch Solvent Extraction of Rice Bran Oil
Lienda Aliwarga 1-10

Growth Mechanism and Characterization of PbTe0.5Se0.5 Thin Films Used by Closed-Space Vapor Transport in a Vertical Reactor
Yanuar Hamzah, Jimmi Copriady, and Ariswan 11-17

Treatment Of Tofu Industry Wastewater Using Bioreactor Anaerobic-Aerobic And Bioball As Media With Variation Of Hydraulic Retention Time
Ariani Dwi Astuti, and Dewi Intania Ayu 18-25

Encapsulation of Soursop (Annona muricata Linn.) Leaf Tea Extract Using Natural Mucilage
Melanie Cornelia, Kam Natania, Herry Cahyana, and Edison Sutiyono 26-33

Effect of Esterification on Cassava Starch: Physicochemical Properties and Expansion Ability
Siswo Sumardiono, Listiyana Riska, Bakti Jos, and Istri Pudjiastuti 34-41

Volume 19 Number 2 June 2019

Nutritional Characteristics and Potential Applications of Flour Prepared from Indonesian Wild White Yam (Dioscorea esculenta L.)
Diah Susetyo Retnowati, Ratnawati Ratnawati, and Andri Cahyo Kumoro 43-48

The Impact of Combination of Ozonation and Ultrasonication Process on Morphological and Chemical Properties of κ-Carrageenan
Nurfiningsih Nurfiningsih, Ratnawati Ratnawati, Aji Prasetyaningrum 49-53

Outdoor Closed System of Algal Mass Culture: In Sight of Comparison on Vertical and Horizontal Photobioreactor for Cultivating the Spirulina sp.
Hilda Farida, Puspita Sari Harahap, Rifana Sobari, Rudyanto Gunawan, Delicia Yunita Rahman, and Dwi Susilaningsih 54-61

Utilization of Crude Intracellular Chitinase Enzyme from Providencia stuartii for Glucosamine Production from Shrimp Shells
Hardoko, Titri Siritantri Mastuti, Desy Puspasari, and Yuniwaty Halim 62-67

Abstract

Abstract title is written with Times News Roman style (10 pt and bold) and centered format. The body text of abstract was written italic style (10 pt) amounts 150-200 words, with left margin and right margin 25 mm and 20 mm from edge. The abstract should be clear, concise, and descriptive. This abstract should provide a brief introduction to the problem (preferably 1-2 sentences, objective of paper, research method in short, and a brief summary of results. The abstract should end with a comment on the significance of the results or a brief conclusion. The abstract is preferably not more than 300 words. Keywords written under the abstract text arranged in alphabetical order and separated by a semicolon. Title keywords written with regular format with 10 pt bold font while the key words in italics (italic).

Keywords: abstract; keyword; title; writing guidelines

INTRODUCTION

Reactor is published since 1997 with 2 (two) issues every year, i.e. June and December. In 2012, Reactor is published every April and October. Starting in 2016, Reactor is published 4 (four) times a year i.e. March, June, September and December. Reactor is a journal that has been accredited by SK No. 60/E/KPT/2016 with p-ISSN No. 0852-0798 and e-ISSN No. 2407-5973. Articles in the Reactor come from articles submitted to the Reactor Editor and after going through the review process by the Editorial Board and/or Reviewer. Articles submitted must be free from plagiarism and autoplagiarism.

The Reactor as an accredited national journal has developed an online management system. The submitted/article submission process and article review process are performed by online. Currently, Reactor has been indexed by some indexing machines such as; Indonesia Citation Index, Google Scholar, Portal Garuda, E-print UNDIP, Open access articles, Research Bible, DAIJ (Directory of Abstract Indexing Journal), OAJI (Open Academic Journal Index), EZB Nutzeranfragen, World Cat, SHERPA/RoMEO and DOAJ.

Articles can be written in either English or Indonesia. Articles can be results of research, state of the art studies, and analysis and problem solving in industries relevant to the field of chemical engineering, which have not been published in other publications.
RESULTS AND DISCUSSION

Figures and Tables

Figures and Tables are placed in groups of text and annotated. The figure is followed by the caption placed under the figure and the table followed by the
username and keyword to be able to register the article. Metadata must be filled in completely. The article should be supplemented by a Declaration Letter stating that the article is free from conflict and plagiarism. For prospective Authors who have not been able to submit online can contact the Editor via E-mail with the address j.reaktor@che.undip.ac.id atau reaktor_tkundip@yahoo.com.

The submitted articles will be reviewed by the Editorial Board and/or Reviewers. Correspondence will be addressed to the corresponding author. The author should immediately improve the article according to the reviewer's instructions. If the article has been declared acceptable, either the Main Revision or Minor Revision, the Author must correct it no later than **15 days** after the notice. If the author does not improve his article more than 15 days, then when submitting the article will be considered as a new registration (New Submission).

The editor reserves the right to reject articles submitted if irrelevant to the field of chemical engineering, not up to date or have been published in other scientific magazines.

**NOTATION**

Notation is written alphabetically. Latin letters are written first, followed by an Arabic letter.

**REFERENCES**

References are listed alphabetically without numbering and the distance between the bibliography is 1 space (10 pt). The rules of writing used are as follows:

**Magazine/scientific journal/proceedings:**

**Book:**

**Diertation/thesis:**

**Patent:**

**HandBook:**
